

## HOMework 5

Due date: Squad A, Sunday, October 20, 14:30

Squad B, Tuesday, October 22, 8:30

Try sending from the PC via UART a string of variable length that is displayed on the LCD.

Hint: send one letter per time. If you are curious, there are also smarter solutions which are not so immediate.

Complete the ADC projects 2b and 2c.
